

Employee spotlight Interview of our Indian developers

Could you introduce yourself briefly?

Shilpi Kan:

I am Shilpi Kan from Lucknow, India. I trained to become a journalist, but then got into English training and later into, technical writing. I consider myself an eclectic individual having varied interests from books to sports to movies and music. I am majorly interested in cooking and have been dreaming, since forever, of starting my own food joint that is as eclectic as its owner! :)

Anupam Gupta

I am Anupam Gupta having around 8 years of experience in IBM i Technology. During my 8 years, I had worked on health care domain mainly for CVS Caremark and Healthnet and during this period I had gained a good knowledge of Synon 2e tool.

Dharmveer Singh

My name is Dharmveer Singh. I have total 8 years of professional experience in Electrical Engineering Design and in Information Technology area where I worked for Automobile/Airline/Insurance domains on Mainframes and AS/400 platforms. I am glad as well as excited to be a part of Arcad family because I know that I will get the opportunity to enhance my technical skills and to grow professionally. I like cooking and reading books in my free time."

Manoj Kumar Verma

My name is Manoj Kumar Verma. I have completed total 6 years (2 years experience as a Software Developer, 2 years experience as a Software Engineer and 2 years experience as a Senior

Software Engineer. I have a master degree in computer application and a bachelor's degree in Biology (with Zoology, Botany and Chemistry). I enjoy meeting new people and finding ways to help them have an uplifting experience. I consider myself a good programmer.

Ritesh Gupta

I have 12 years of experience in IBM i technology. During these 12 years, I got the opportunity to work in various roles (like developer, module lead, team lead, technical trainer, project manager etc.) and various domains. I have worked in both product and support environment. Apart from work, I love to travel to new places and explore them. Also, I love to watch movies.

Alok Dwivedi

Hi, I am Alok Dwivedi. I have been working as a Java Developer since six years. I have worked on utilization of Eclipse based utilities for integrating with IBM i systems thereby simplifying the complexities of IBM i to present them on the UI side in the form of tables and UML diagrams and documenting them programmatically.

Saurabh Kumar Mishra

I am Saurabh Kumar Mishra, having total experience of 6 years and 5 months in IBM i and Mainframe. In my tenure, I have worked in various domains like Retail, Banking and Insurance. Mostly I have been working on services project to support the Customers on their application.

Where did you develop on the IBM i platform?

Shilpi Kan

It was in my previous company, where I got introduced to the IBM i platform. However, I didn't really get to work much on it because my documentation tasks revolved around the UI.

Anupam Gupta

I started my career with Cognizant Technology Solution India Pvt Ltd and there I got trained on IBM i platform.

Dharmveer Singh

I worked on all projects in my previous company Databorough India Pvt. Ltd on IBM i platform.

Manoj Kumar Verma

In my previous company in India

Ritesh Gupta

Computer Science Corporation (CSC)

Alok Dwivedi

I started to use IBM i platform in my previous company in India.

Saurabh Kumar Mishra

Infosys Ltd. And others companies in India.

What's your position at Arcad software?

Shilpi Kan:

I joined Arcad in November, 2017 as a Technical Writer.

Anupam Gupta

My current position at Arcad is System Analyst, Technical Support & Education.

Dharmveer Singh

I am working as Software Engineer Technical Support.

Manoj Kumar Verma

System Analyst, Technical Support

Ritesh Gupta

Manager – Technical Support

Alok Dwivedi

My current position at Arcad is System Analyst

Saurabh Kumar Mishra

System Analyst, Technical Support.

Why Arcad?

Shilpi Kan

Arcad... because the company recognizes and appreciates one's diverse professional experience. This was quite an encouraging aspect for me. Moreover, it was time that I challenged myself working with a different toolset.

Anupam Gupta

Arcad is a product based organization which deals with the IBM i modernization and also have 25 years of Release Management expertise which definitely help me to improve my knowledge in IBM i Platform and other as well.

Dharmveer Singh

I am glad as well as excited to be a part of Arcad family because I know that I will get the opportunity to enhance my technical skills and to grow professionally.

Manoj Kumar Verma

As I was looking for growth oriented organization, I aimed to obtain high level of excellence by utilizing myself as a resource for all kinds of challenging jobs. So, ARCAD is one of the best company for upgrading my knowledge and skills.

My mentor Devendra and Ritesh were first people I met in IT software. They made me feel very welcomed from the first moment we met.

I got to meet ARCAD team including Philippe, Alexandre and Christophe who are all very nice people.

Ritesh Gupta

I strongly believe that Arcad has the perfect environment which will utilize my knowledge in the best possible way and in the process, it will help to emerge as a better developer and leader.

Alok Dwivedi

Since I have been working the field of integrating IBM i and Java, therefore I feel that Arcad's various modules are very challenging to work on to enhance my skills especially with the change management tools and IBM i platforms.

Saurabh Kumar Mishra

I joined ARCAD because it is among world's leading IBM i product development companies and I will get ample of opportunities to grow myself professionally.

What is a technical challenge you've experienced at Arcad and how did you solve it?

Shilpi Kan

The IBM i platform is the greatest technical challenge, per se, as I have had very limited exposure to it. I am trying my best to overcome this challenge and get easy with working on the green screen. Every day is learning experience. Being a member of a team mostly comprising IBM i experts also helps!

Anupam Gupta

Currently, we are involved in getting trained in various Arcad Product.

Dharmveer Singh

Currently I am working on ARCAD tool and am trying to understand the each and every functionality of the tool so that I can support the client effectively.

Manoj Kumar Verma

Understanding Macro programming. I did documentation by debugging few important Macro(s) for better understanding.

Ritesh Gupta

Right now we are working on ARCAD product. We are trying to go through all the aspects of this tool, so that we can sever our clients in best possible way.

Alok Dwivedi

Currently I have been trained on various modules of Arcad Software and I feel that working on the enhancement of these modules on the front end side will be quite challenging role for me.

Saurabh Kumar Mishra

Currently I am working on ARCAD tool and am trying to understand the each and every functionality of the tool so that I can support the client effectively.

What's a cool project you've recently worked on?

Shilpi Kan

I am working on the Arcad macros and the immense amount of understanding and detailing makes it a very cool assignment for me.

Dharmveer Singh

Arcad Skipper

Ritesh Gupta

In Arcad, we are working on ARCAD-SKIPPER, which I think is one of the best Change Management tool available in market right now. Before joining Arcad, I was leading the support team which were managing various clients. In past, I also worked on tools like X-Analysis and modernization.

Alok Dwivedi

The concept of macros in Arcad looks really cool.

Saurabh Kumar Mishra

ARCAD Skipper.
